### Purifying rock salt

Romeo wrote his notes on how to purify salt from rock salt but some of the letters became muddled - your task is to write the correct word under the muddled letters

1. Rock salt is a TRIXUME and is PRIMUE
2. The TALS SEDIVLOSS when added to water
3. The solution is DRELTIFE to remove solids.
4. The water is PEROVADET by THANIGE the solution.
5. RUPE sodium chloride is left as white STALYRICS.

Juliet decided to hide all the important words in a word-search - can you find them, and then use them all to describe how to obtain pure salt from rock salt?

S W A T E R X I R O S  
 A S E V L O S S I D O  
 N L R O C K O L K O L  
 D A U M S A L T W P U  
 Z T T R Q T U V E I T  
 R S X F I L T E R R I  
 E Y I M P U R E U T O  
 P R M F G S O T P I N  
 A C R U S H N G K Z E  
 P E V A P O R A T E H
